**RS Greece Sponsors
Formula Student**

We're very proud to be supporting the University of Patras racing team

RS Greece Sponsors Formula Student

Athens, Greece - 31.07.2007. The University of Patras, Mechanical Engineering & Aeronautics Department, recently took part in the University British Grand Prix, an event staged at Silverstone, the home of the actual F1 British Grand Prix.

The event, held just one week after the actual Grand Prix, consists of a series of races and challenges amongst various Universities from around the world, all of which have designed and built their own vehicles.

The University of Patras vehicle is proudly sponsored by RS Components Greece, a wholly owned Subsidiary of TCC Malta.
